Spotlight on local initiatives:

GrowN22

Our Story

GrowN22 started with a simple idea: what if we could take the neglected corners of our neighbourhood and turn them into spaces of beauty, community, and sustenance? From that seed, GrowN22 has grown into a thriving community interest company (C.I.C) dedicated to greening Haringey one garden at a time.

Our Mission

- **Revitalisation**: To transform underutilised spaces within our borough into vibrant community gardens that serve as green lungs for our urban environment.
- **Community Connection**: To foster a sense of community, belonging, and shared purpose through gardening activities, workshops, and volunteer opportunities.
- **Education and Sustainability**: To educate on sustainable living, urban farming, and biodiversity, empowering residents with knowledge and skills to grow their own food and care for their environment.

What we do

- **Community Gardens**: We identify unused spaces and work with local authorities and residents to convert them into thriving gardens.
- **Corporate and Educational Workshops**: Offering hands-on workshops on gardening, composting, and sustainable living practices.
- **Volunteer Days**: Regular volunteer sessions where anyone can contribute, learn, and connect with fellow community members.
- **Events and Gatherings**: Hosting events like plant swaps, harvest festivals, and garden parties to celebrate our collective efforts.
